

FAST RESPONSE TO THE DESIGN AND PRODUCTION OF LOW COST TRAINING MANUALS

Company Profile:

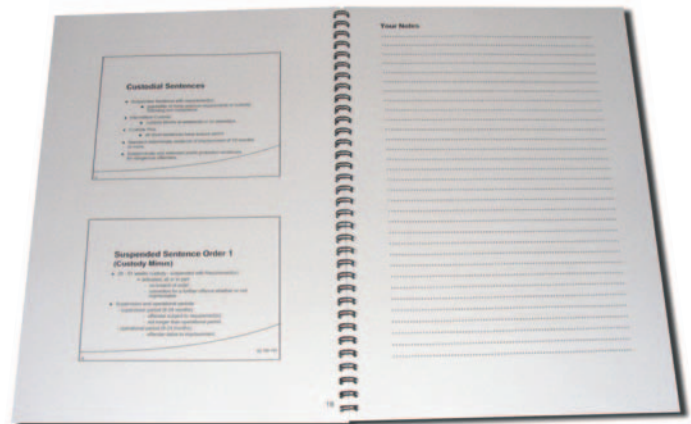

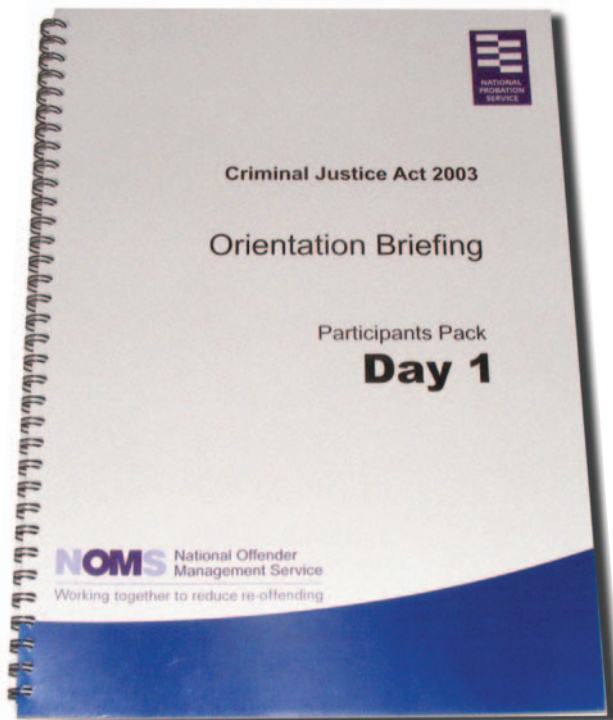

West Mercia Probation provides training services to probation staff in the West Midlands.

Problem Solving Profile:

West Mercia Probation had to create quickly a set of three courses for Probation Officers (to be extracted from the Criminal Justice Act 2003 CD produced by the Home Office) within just 8 working days.

Solution to Problem:

 Jasprint designers extracted the relevant sections from the CJA CD, scanned in further sections from hard copy, created attractive covers with contents dividers and generated an index and page numbering system. We went through a full proof agreement discipline with the client then printed 300 off each of the three manuals within the 8 working day deadline.

Benefits are:

-  Low cost black digital printing for contents pages
-  Attractive content layout with colour covers
-  Wire-O binding gives 180 degree opening
-  High Speed production
-  Fast "ping-pong" proofing of documents using Adobe Acrobat PDF files
-  Creative design work achieved over the intervening weekend
